SUKHSAGAR (1927) MASTER ARCHIVAL BLUEPRINT

Framework & Sovereign Heritage Ledger | Butani Heritage Collection

Preservation Notice: This master blueprint establishes the international archival, legal, and structural standards for preserving the 1927 Naval Kishore Press edition of the Sukhsagar (1,166 core pages including index). Designed for global open access under Creative Commons (CC BY-NC-ND 4.0), it cleanly decouples family heritage dedication from formal public domain copyright registry and cryptographic authentication.

SECTION I: DIRECT PATRILINEAL HERITAGE REGISTRY

The identity matrix of this digitized volume is anchored in verified family records maintained at Haridwar, focusing strictly on the direct line descending from the root patriarch:

Suyash Butani (Archival Architect) → Shri Harish Butani (Father) → Shri Arjun Das Butani (Grandfather) → Shri Kakalmal Prabhudas Butani (Great-Grandfather) → Shri Prabhudas Ji → Shri Bhikhchand Ji (Root Patriarch, d. 1930)

- **The 1930 Sacred Duty:** In 1930, following the passing of root patriarch Shri Bhikhchand Ji, his grandson Shri Kakalmal Prabhudas Butani carried the sacred family relics to Haridwar under strict vows of ritual purity, upholding absolute spiritual lineage continuity.
- **Preservation Journey:** During pre-partition instability, Shri Kakalmal Prabhudas Butani protected this 1927 volume across migratory transit routes, arriving permanently in Dewas, Madhya Pradesh, where it has been guarded across four direct generations.
- **Standardized Surname:** The official family surname is standardized and hardcoded across all archival records as **Butani** (spelled with a standard 'B', sans 'h').

SECTION II: DOCUMENT STRUCTURE & CHRONOLOGY

The compiled volume conforms strictly to a 5-part linear archival sequence:

- **Page I: Sovereign Family Dedication:** A minimalist, high-dignity institutional page presenting the verbatim bilingual dedication text. Completely free of barcodes, modern headers, or technical warnings.
- **Page II: Original 1927 Publication Index:** The scanned original table of contents from the 1927 Naval Kishore Press edition, serving as the primary historical navigation page.
- **Part III: Core Book Canvas (1,166 Pages including Mangalacharan & Index):** Complete high-resolution scanning of Mangalacharan (Page III canvas protected cryptographically via a vector Type 2 QR background watermark at 10%-12% opacity), Bhagavata Mahatmya, and all 12 Cantos (Skandhas) with embedded Type 1 Direct Download QR codes.
- **Section IV: Copyright & Preservation Registry:** Legal framework defining Public Domain status and CC BY-NC-ND 4.0 licensing, stamped with blue signature seal.
- **Section V: Digital Certification Page:** Standalone authentication page containing an 8cm x 8cm 100% dark Type 2 QR code linking to the master repository.
